Election/Restrictions

1. This application is in condition for allowance except for the presence of claims 1-3, 12-23, and 29-40 are directed to inventions non-elected without traverse.

Accordingly, claims 1-3, 12-23, and 29-40 have been cancelled.

EXAMINER 'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Viola T. Kung on 12-06-07.

The application has been amended as follows:

In the claims:

Claims 1-3, 12-23, and 29-40 are canceled.

Claim 4, line 8, change "associated packet packet" to --- associated packet ---.

Claim 41, line 10, change "same" to --- associated packet ---.

Claim 43, line 10, change "same" to --- associated packet ---.

Reason for Allowance

3. Regarding claims 4-9, and 24-26, the prior art fails to teach or suggest a packet classification system comprising a packet classification engine that is configured to classify the packet responsive to the packet portions received over the first data path and provide data representative of the packet classification; and an associator for associating the data representative of the packet classification with some or all of the packets, and providing the associated packets over a second data path having a second width less than the first width, in combination with other limitations, as specified in the independent claims 4, 8, and 24.

Regarding claims 10-11, 28, 41, and 43, the prior art fails to teach or suggest a packet classification system comprising a control logic, wherein the control logic is configured to place an identifier of a packet on the first stack upon or after receipt of the packet by the packet classification system, pop the identifier off the first stack and place it on the second stack upon or after initiation of classification processing of the packet by the packet classification system, and pop the identifier off the second stack upon or after completion of classification processing of the packet by the packet classification system, and the packet classification system is prevented from outputting a packet while an identifier of the same is placed on either the first or second stacks, and is free to output the packet upon or after the identifier of the packet has been popped off the second stack, in combination with other limitations, as specified in the independent claims 10, 28, 41, and 43.

4. Regarding claims 27, 42, and 44, the prior art fails to teach or suggest a method of modifying a packet comprising the steps of modifying one or more packet portions;

Art Unit: 2619

and assembling a packet from one or more modified and one or more unmodified packet portions, and providing the assembled packet over a second data path having a second width less than the first width, in combination with other limitations, as specified in claims 27, 42, and 44.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Duc Ho whose telephone number is (571) 272-3147. The examiner can normally be reached on Monday through Thursday from 7:30 am to 6:00 pm.

If attempt to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jay Patel, can be reached on (571) 272-2988.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (571) 272-2600.

The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Art Unit: 2619
